BID SPECIFICATION

Amatola Water invites quotations from suitably qualified and experienced service providers for **REQUEST FOR QUOTATION FOR THE DEVELOPMENT INTEGRATED WASTE MANAGEMENT PLAN SERVICES AT AMATOLA WATER**

BACKGROUND

Amatola Water is an Eastern Cape based state-owned water services utility (water board), established in 1997, in terms of the Water Services Act. Its prime function is to provide bulk water and sanitation services to water sector institutions, water service authorities and other customers as provided for in the South African water services legislation. Amatola Water's service area includes Buffalo City, the Amathole District and portions of adjoining districts in the central Eastern Cape.

Amatola Water's commitment to environmental sustainability is a strategic objective and has developed an environmental management system. However, waste management is fragmented and there is no single cohesive and integrated waste management plan to manage the various waste streams of the organisation. Amatola Water therefore seeks the services of a suitably qualified specialist/s to develop an Integrated Waste Management Plan with an action plan that can be phased into operations in all Amatola Water operational areas. Inclusion of recycling where possible, to reduce the waste stream, into the plan will be critical.

This project forms an integral part of Amatola Water's Environmental Management System and should aim to assist Amatola Water with implementation of its Environmental Sustainability Strategy and lend support to Amatola Water's Eco Journey (environmental awareness campaign).

Terms of Reference

The Request for Proposal and Quote calls for:

1. Identification of the various waste streams across Amatola Water's entire value chain (various operational areas) and the development of an Integrated Waste Management Plan, including a recycling plan (where appropriate / applicable).
2. The development of an implementable action plan for the phased implementation of the waste management plan.

NB:

- Time frames: the Integrated Waste Management Plan and action must be completed by 31 May 2025.
- Clear methodology with project timelines with deliverables must be provided (project implementation plan).
